PRESS RELEASE

The transeuropean project focused on Sustainable Development Goals called SociSDG between eight EU countries produced nine SDG webinars and SociSDG Handbook

SociSDG, under the name [*Social Innovation & Inclusion of Sustainable Development Goals - sociSDG*](#), is an Erasmus+ strategic partnership focused on nine socially-oriented Sustainable Development Goals (SDGs): No poverty, Zero hunger, Good health and well-being, Quality education, Gender Equality, Decent work and economic growth, Reduced inequalities, Sustainable cities and communities, and Responsible consumption and production. Project consortium consists of nine organizations working in the field of adult education, sustainability and corporate social responsibility: [The Croatian Institute for CSR](#) (coordinator, Croatia), [Global Impact Grid](#) (Germany), [LUM University](#) (Italy), [Pontis Foundation](#) (Slovakia), [Homo Eminens](#) (Lithuania), [Materahub](#) (Italy), [LatConsul SIA](#) (Latvia), [Datamaran](#) (UK) and [Kaleidoscope Futures](#) (UK).

Main objectives of the project were adult education, cooperation for innovation and the exchange of good practice examples when it comes to nine socially-oriented SDGs. **Project aims to show and educate businesses and other organizations about the importance of their impact on society, as well as urgency of measurement and implementation of social SDGs into business strategies.** It also focused on the exchange of good practice examples of companies already integrating SDGs into their models by measuring their social impact and developing tools and methodology for its integration. Through five learning activities in Berlin, Zagreb, Matera, Riga and Bratislava project partners worked on the development of educational material: SDG webinars and the SociSDG Handbook, which facilitates learning about SDGs.
